## Equipment Bids To Be Opened Thursday

# Completion of High School Is Scheduled About June 1

The new \$2 million senior high school is expected to be turned over officially to the Board of Education on or about June 1, according to "the best estimates" of the architects and the general contractor, School Board President Alfred L. Fitch said today.

The building will be completed at that time, and in the ensuing summer months furnishings and equipment will be installed.

Furniture and equipment bids are to be opened next Thursday by the board.

**Funds Are Sufficient**

The building will be completed as planned, Mr. Fitch emphasized today, contradicting a report in an out-of-town newspaper that the

board did not have sufficient funds to complete the modern educational structure on E. 6th St. Extension.

"Funds remaining in the building construction fund total \$270,647, and this is sufficient to finish the project as scheduled," he declared.

This includes \$237,647.61 in uncommitted funds and \$33,000 of a \$54,000 bequest by Mrs. S. P. Keener toward construction of the Trades Class wing at the high school.

Mr. Fitch explained that limited funds may make it necessary for school custodians to seed the lawns and plant shrubbery and build the parking lot at the school, but he

emphasized the building will be completed and furnished as planned.

An auditorium at the school, originally planned, was abandoned late in 1956 in favor of the erection of a gymnasium which will have a seating capacity for 2,400 persons.

**Electric Power Turned On**  
Darrel M. Fadely, schools business manager, reported today that electric power to the new high school was cut in Friday, thus assuring operation of the newly installed heating system in the building.

## Military Building Speed Up Placed Under Study

### Job-Creating Actions Pushed Amid Reports Of Joblessness Hike

WASHINGTON (AP)—The Eisenhower administration and the Democratic-controlled Congress pushed job-creating actions today amid reports that unemployment shot up last month to more than 5,100,000.

Senator Lyndon B. Johnson of Texas, Democratic leader, announced Friday he will seek swift Senate action on housing, highway, education and other bills—"major measures in providing jobs," he called them.

Johnson made public a letter saying the Defense Department is looking into the matter of speeding up military construction projects in labor surplus areas—those with relatively high unemployment.

"I think we can pick up some 200,000 to 500,000 jobs by government projects," Johnson said, adding this should have a "good psychological effect upon the country."

#### To Report Joblessness Hike

Informed officials said the government will announce next Tuesday that joblessness rose by more than 600,000 in February to a 16-year peak of more than 5,100,000. Last month's total apparently was between 6½ and 7 per cent of the nation's civilian labor force. Sen. Johnson estimated there now are between five million and six million unemployed.

It was noted that the February figures were gathered in the second week of the month when much of the nation was plagued by storms and intense cold, curtailing some outdoor operations.

Meanwhile, the Labor Department released statistics that indicated unemployment continued to rise after mid-February, although at a reduced rate.

The department's Bureau of Employment Security said joblessness among workers covered by the unemployment compensation system rose by 137,800 to a record 3,268,000 in the week ended Feb. 22.

#### Initial Claims Down

In the previous week, ended Feb. 15, the total of joblessness among covered workers had increased by 158,500. About two-thirds of all workers come under the unemployment compensation system.

Also, the Labor Department said initial claims for jobless benefits, indicating new layoffs, declined by 23,300 to 435,900 for the week ended March 1.

Unemployment generally drops in March with a seasonal stepup in such outdoor occupations as farming and construction.

President Eisenhower and his advisers were pictured as counting on a decrease in unemployment this month. They contend consideration of any emergency moves should await the March

### To Be Named Monday

LISBON—Village Council is expected to name a street commissioner at its regular meeting Monday evening, according to Mayor John Todd.

Former Mayor Wilbur performed street commissioner duties during his administration. However, Mayor Todd who is also employed at the ABC Mining Co., cannot devote the time required to handle the street post.

Mayor Todd recently asked Council to slash his \$4,800 annual salary to \$2,500 because of his status as part time mayor. Council decreased his salary as he requested.

## 8 Killed, 18 Injured In Egyptian Air Mishap

PORT SAID, Egypt (AP)—Eight persons—including an American—were killed and 18 injured Friday night when an Egyptian airliner crashed in a marshy lake after a sandstorm closed airports in this area, Egyptian authorities said today.

The American was identified as William J. O'Brien, 63, of St. Paul, Minn. His wife was seriously injured.

The twin-engine plane was en route from Athens to Cairo when the worst sandstorm in years blew up. Most of the other passengers were Egyptian residents or Greek seamen flying to join their ships here at the northern end of the Suez Canal.

Four of the five crew members on the Misrair S.A.E. (Egyptian Airlines) plane were killed. The other dead included a Greek sea-

## France to Press War Against Rebels

PARIS (AP)—Despite deep-seated French Algerian policy, the National Assembly voted Friday night to intensify the war against the Algerian rebels.

On a vote of confidence in Premier Felix Gaillard's government, the Assembly approved 286-147 his revised military budget of 1,300 billion francs—more than three billion dollars.

Only a few deputies besides the Communists were willing to go on record against the war budget but 160 deputies were absent or abstained, so the vote of approval was by a minority of the Assembly.

The new budget cuts some 95 billion francs—226 million dollars—from other military needs to increase spending in Algeria. Within the limits of a strained national budget, Gaillard told the deputies, "we are giving an absolute priority to the needs of pacification (in Algeria)." But, he said, there was no money available for transfer from nonmilitary budgets.

The additional military funds will be used to add 28,000 troops to forces conducting the 40-month old war. The additions will bring to 375,000 soldiers the French ground force in Algeria, where another 125,000 airmen and sailors are stationed.

Gaillard asked the deputies to think beyond the simple question of military funds. He noted parliamentary uneasiness and said this uneasiness might lead to a new governmental crisis by disrupting his shaky coalition.

"To assume the heavy responsibility which it has, (my government) cannot be content with a

## \$1,545 Contributed For Band Uniforms

The Salem Band Mothers Club is less than \$300 away from its goal of \$1,800 to pay for the grey and red uniforms for the Salem High School Band.

The Band Mothers' appeal to the public for donations has brought in contributions totaling \$1,545.50, leaving only about \$255 to be raised.

Most of the contributions came from individuals. Mrs. Donald Lease, president of the Band Mothers, said that students in the Salem Trades Class, a number of whom are from neighboring cities, had contributed \$315.

The new uniforms have been ordered and are expected to arrive in time for the high school band members to don them for the annual spring concert in mid-April.

A sample of the new uniform has been on display in the Bloomberg store window.

## O'Neill Urges SUB Appeal Be Expedited

COLUMBUS, Ohio (AP)—Gov. C. William O'Neill urges that the appeal of a court ruling affecting supplemental unemployment benefits (SUB) be expedited and red tape cut.

The governor, vacationing with his family in Miami Beach, Fla., made his views known in a statement issued through his press secretary here Friday night.

In explaining why he thinks the state should appeal the SUB ruling of Mahoning County Common Pleas Court, O'Neill said:

"Because there are very important issues involved in this case I do not feel that it would be proper to allow the decision of a Common Pleas Court of a single county to stand as the law of Ohio under the circumstances. . . . The case can only be determined for the whole state by a decision of the Ohio Supreme Court. . . ."

The Mahoning County court ruled Wednesday that SUB payments could be made to unemployed workers at the same time they receive state jobless benefits.

The Ohio 'bureau of Unemployment Compensation held just the opposite view.

The governor already has asked the attorney general to take appropriate court action to stay execution of SUB payments. For this he has been criticized by at least one state representative and the Ohio CIO Council.

Atty. Gen. William Saxbe himself is opposed to staying the SUB payments, though not opposed to the appeal itself.

Some employers and employees contribute to a fund while the employee is working. It is this money which is used to finance SUB payments during the worker's unemployment.

The control tower operator said one of the planes radioed him shortly after dark. A few minutes later the operator "saw a flash in the sky," the Navy reported.

An Okinawan witness said he saw three distinct flashes. Other witnesses said they heard a terrific explosion and saw "a ball of fire" fall into the sea.

U.S. Navy craft and Army, Navy and Air Force planes immediately launched a search of the area. The heavy sea, a layer of mist and the darkness hampered them. Threatened storms held up Okinawan fishermen from the town of Itoyan who volunteered to help.

Early today an Air Force helicopter made the first sighting of bodies and wreckage.

**Heart Attack Kills Man Driving Auto**

George A. Horning, 63, of 1241 E. 4th St. suffered a fatal heart attack at 6:51 a.m. today driving to work.

Mr. Horning was driving west on E. 3rd St. when he was stricken. His car went over the curb on the south side of the street and came to rest against an unoccupied house at 725 E. 3rd. St., police reported.

The victim was taken to the Central Clinic where he was pronounced dead on arrival.

Born April 14, 1894 at Randolph, he was a son of George and Lizzie Kline Horning. He had lived in Salem 20 years, coming from Alliance.

He was employed as a bench hand by the United Tool and Die Co. for the past eight years.

He was a member of St. Paul's Catholic Church and was president of the Salem Junior Democratic Club.

His wife, Thelma McNeal, whom he married Aug. 29, 1953, survives, together with two sons, Richard of Salem and Frederick of Columbus; a step-daughter, Judy Barber of the home; and a sister, Mrs. Joe Ensinger of Ravenna. A brother, Arthur, preceded him in death.

Service will be Monday at 10:30 a.m. at the Stark Memorial, with the Rev. Fr. J. Richard Gaffney officiating.

Friends may call at the memorial Sunday from 2 to 4 and 7 to 9 p.m.

## 23 Others On Marine Planes Feared Dead

Debris, Other Bodies Sighted by Searchers South of Okinawa

NAHA, Okinawa (AP)—A U. S. Marine transport plane carrying 25 persons and a single-seat Marine fighter-bomber collided Friday night as they were preparing to land and plunged into the ocean as "a ball of fire."

Navy search parties recovered three bodies today and sighted other bodies amid debris and wreckage in the water three miles south of Naha.

U.S. ships and planes searching for possible survivors with the help of Okinawan police and fishermen were hampered by rough water and reefs in the shallow sea.

The planes were an R4Q, the Marine version of the C119 Flying Boxcar, with 19 passengers and a crew of six, and an AD5 attack fighter-bomber. They were returning from Operation Strongback, a U.S.-Philippine amphibious maneuver in the Philippines.

The planes had taken off from Subic Bay, a U.S. Navy base west of Manila. The AD5, which cruises at about 300 miles an hour, apparently overtook the 200-mile-an-hour transport during the 850-mile flight to the U.S. Navy Air Station near Naha.

The control tower operator said one of the planes radioed him shortly after dark. A few minutes later the operator "saw a flash in the sky," the Navy reported.

An Okinawan witness said he saw three distinct flashes. Other witnesses said they heard a terrific explosion and saw "a ball of fire" fall into the sea.

## Bishop Faces Trial Monday

### Judge Buzzard Ruled Qualified to Preside

Dallas Bishop, 40, of Salsville, former East Liverpool policeman, will be tried for burglary as the result of a ruling issued Friday by Ohio Chief Justice Carl V. Weygant.

The chief justice ruled that Judge Buzzard was qualified to preside over Bishop's trial following a hearing on an affidavit of prejudice filed by the latter.

Bishop, who is charged with burglarizing the Berman Lumber Co. in East Liverpool, contended the county's two judges, Buzzard and Joel H. Sharp, were prejudiced and that he would not get a fair trial if either presided.

Bishop was one of seven East Liverpool police and special officers implicated in the 1956 police burglary scandal.

Under indictment on two counts of burglary, the pleaded guilty, gave a written confession and was a state witness in the first two police trials in June, 1956.

His subsequent testimony on the witness stand failed to match his confession, and the state asked for a delay of the trials. Seven indictments remain untried.

After defendants in the first police trial were acquitted, Bishop tried to change his plea of guilty to not guilty but was denied by Judge Sharp who sentenced him to two consecutive terms of one to 15 years in the penitentiary.

Bishop's appeal was upheld by the District Court of Appeals and the Ohio Supreme Court.

## George Co. Directors Name Officers

EAST PALESTINE—Paul J. Steffens, former president of the W. S. George Pottery Co., was re-elected president at a reorganization meeting of newly named directors Friday night at the pottery.

Roy V. Beck was elected chairman of the board of directors; Lester Ward was re-elected secretary-treasurer; and George T. McKinstry was elected assistant secretary-treasurer.

Steffens, who previously served as president for two years, resigned from that post at the stockholders' meeting a week ago and was subsequently named a director.

Beck is an automobile dealer and the president of the Union Commercial Bank.

Ward, who served as secretary-treasurer for about two years prior to his re-election, has been with the company about 18 years.

McKinstry is an insurance agent and a former teacher and basketball coach at the high school.

The directors agreed to meet every Saturday afternoon while establishing basic policies for getting the plant back into full production.

The work schedule at the plant has been stepped up during the past week, the directors reported. About 75 persons are employed there now, many on a parttime basis to fill rush orders.

# Bible Words for Today

MARK 10:15 - "Truly, I say to you, whoever does not receive the kingdom of God like a child shall not enter it." (RSV)

Without paraphrasing it is not possible to make clear whether Jesus means to say, "Whoever does not receive the Kingdom of God as a child would receive it" or, "Whoever does not receive the Kingdom of God as he would receive a child." Logic favors the former translation, and the verse itself explains how God's kingdom belongs to the childlike. A child accepts a gift freely, without thinking of whether he deserves it. In the same way a child receives spontaneously, without questioning the motive of the giver. Jesus here is teaching that no one can earn the Kingdom of God; one must accept it as a free gift of divine grace. Thus the statement that God's kingdom belongs to the childlike is in line with the Beatitudes in the Sermon on the Mount, where it belongs to the poor in spirit or to the persecuted.

# Confident Living People Can Get Along Together

By NORMAN VINCENT PEALE

Some years ago a young minister came to visit me. This young man had only recently graduated from a seminary and acted as though he knew all the answers. I found him rather pompous - but we all are, I guess, at that age. Fortunately most of us get over it.

"How are you getting along in your new church?" I asked my visitor.

"Well, not so good." Then he added rather defensively, "But the Baptists down the street aren't doing so well either." It was almost as if he had said, "I'm not doing very well but, thank God, the Baptists aren't doing any better than I am."

Marine Pfc. Harvey T. Stump, son of Mr. and Mrs. Harvey T. Stump of 178 Woodland Ave., has been graduated from the Second Marine Division's Field Message Center School at Camp Lejeune, N.C.

David J. Huffman, fireman, USN, son of Mrs. Helen Huffman of 1125 E. State St. has been selected from among hundreds of submarine candidates to serve aboard the nuclear submarine USS Sargo, being prepared for duty with the Pacific Fleet at the Mare Island Naval Shipyard in Vallejo, Calif., the Navy announces.

Specialist Third Class Ernest Banar, son of Mr. and Mrs. Emil J. Banar Sr., 473 Perry St., recently completed the radio relay and carrier operation course at the Army's Southwestern Signal School, Fort Gordon, Ga.

The 21-year-old soldier entered the Army in June 1956, completed basic combat training at Fort Jackson, S.C., and was last stationed at Fort Campbell, Ky. He is a 1956 graduate of Salem High School.

Specialist Third Class Richard J. Sekely, son of Mr. and Mrs. Carl Sekely of Salem, is training at Fort Lewis, Wash., for artillery battalion tests that will involve the firing of simulated atomic shells.

Sekely is an FDC chief computer in the 4th Division's 20th Artillery.

## Air Force Recruiter

## Here Every Tuesday

Sgt. William Thomas, newly-assigned Air Force recruiter in the district, will be stationed at the Salem Post Office building each Tuesday to interview prospective enlistees in the Air Force.

High school graduates in the 17 to 35-year age group are sought. Applicants for navigator training must be at least 19 years old. Women enlistees for the Wafs also are sought.

M.Sgt. Irvin Paganelli of Alliance is Air Force recruiter for the adjacent seven-county district.

## A Primary Interest

One of the world's wealthiest men was quoted recently as saying he gladly would have traded his many millions for just one lastingly successful marriage.

This man has been married five times. Each of his marriages ended in divorce.

He places the blame entirely on himself, on his preoccupation with financial matters; he says no woman wants to play a secondary role to a man's business.

Perhaps this is true in some

cases. But there have been many happy marriages that have gone hand-in-hand with busy careers. Chances are, preoccupation with financial matters was not the sole difficulty in this case, especially since each wife tried to make a success of her part of the marital pact.

THE POINT IS, this man who now says he gladly would have given up his huge fortune for a happy marriage did not do so. He knew what was standing in the way of a successful married life, but he did not do what he now says he gladly would have done.

We need not possess millions of dollars or stand at the head of a far-flung financial empire to face the necessity of choosing what we consider most important in life. On all levels of our economy, in cottage or mansion, in crowded city or suburb, we face this necessity almost every day.

It isn't an occasional choice we must make; it does not involve major decisions only. It is a constant process of choosing what we consider primary in our wants and desires. And, as we decide, we must be conscious of what we are giving up, and be willing to make the sacrifice, if a sacrifice it is, then make it!

IT IS INCONCLUSIVE to say that a woman does not want to play a secondary role in her husband's life. Other interests are inevitable - job interests, sports and recreation, children, home and church - or else life becomes restricted and self-centered.

It depends on the interest. A wife, or a husband for that matter, does not become secondary to other interests if the interests are genuine, wholesome and inspiring. Such an interest on the part of either is a primary interest in both lives.

Consider for a moment the life of a minister's wife. Many days she does not see her husband from early morning until late at night. He is a busy man seven days a week. He devotes his full time and effort and energy to his job.

But his wife does not feel she is secondary in his life. She is so much a part of his interests that they are primary in her life, too.

## Rep. Hays Confident Of Retaining Office

WASHINGTON (AP)—Rep. Wayne L. Hays, Ohio Democrat from Flushing, doesn't think much of Republican hopes of replacing him with a Republican representative.

Ray Bliss, Ohio GOP chairman, has said his party may add one more seat to its already top heavy delegation of 17—out of 23—in the House next fall. And that seat, Bliss said he believes, will be that of Hays.

"That prediction makes me feel good," says Hays. "He has said that ever since he has been Ohio chairman, and he has been wrong every time."

"If I were Mr. Bliss, I would worry about holding the seats I have instead of getting more."

Hays is unopposed in the upcoming May Democratic primary for nomination in the 18th Ohio Congressional District, comprising Belmont, Carroll, Columbiana, Harrison and Jefferson counties. Two Republicans, Ed Griffith and Francis Wallace are seeking the Republican nomination.

## Federal Reserve Leak To Be Investigated

CHICAGO (AP)—Rep. Wright Patman (D-Tex.) said today he will insist that the chairman of the Federal Reserve Board appear before the House Banking and Currency Committee "to explain why there was a leak" on a discount rate announced Thursday.

The board chairman is William McChesney Martin Jr.

Patman, a member of the committee headed by Rep. Brent Spence (D-Ky.), told the Associated Press strong rumors about a rate reduction flooded Wall Street in New York before the board's actual announcement. He said this allowed dealers in government securities to "really clean up a profit."

The board approved a reduction in the discount rate from 2 1/4 to 2 1/8 per cent effective Friday at New York, Philadelphia and Chicago federal reserve banks. The discount rate is the interest charge that member banks pay to borrow from the Federal Reserve System.

precarious or watered-down confidence of the Assembly," the 38-year-old premier said.

With an increasingly vocal minority of the Socialist party protesting support for any government which does not seek a negotiated settlement in Algeria, former Premier Guy Mollet barely managed to keep the 90 Socialist deputies in line. His argument was that this is no time to desert Gaillard, thus bringing him down and leaving France without leadership.

Gaillard said he had hopes that the U.S.-British good offices mission could settle a dispute with Tunisia that arose from the French attack Feb. 8 on the Tunisian village of Sakiet Sidi Youssef.

## With The Patients

Robert Groner has returned to his home on the Damascus Road from the Cleveland Clinic Hospital.

**ROCK-A-BYE PATIENT** — It's out of the nursery into the hospital for the "rock-a-bye." At least that's true for some stomach ulcer patients who will receive a gentle rocking on this X-ray examination table designed by General Electric. For some examinations of this disorder the patients are rolled and tilted in a variety of positions. This allows the radiologist to see the barium, swallowed by the patient, as it flows from one part of the stomach to the other. Dr. Richard Schatzki, radiologist of Brookline, Mass., writing in Your Radiologist magazine, says, "gentle rocking of the patient will bring the proper amount of coating over the area desired and leave the ulcer filled with barium."

employment figures, due out a month from now.

The letter Johnson released on Defense Department plans to speed military construction projects came from Deputy Secretary Quarles.

Quarles said there are 450 million dollars worth of projects that can be started in areas of "substantial" unemployment and that these are being "initiated as expeditiously as possible." He indicated, however, any speed-up on projects already under way will have to be done without increasing government costs.

Quarles said the awarding of contracts for military purchasing and construction has been stepped up 50 per cent above the rate of the last six months of 1957.

"This substantial increase during the months ahead will unquestionably provide a desirable impetus to the economy," he added.

### Unity Class to Hold Square Dance Tonight

## Goldwater-Reuther Showdown Delayed

WASHINGTON (AP)—A face-to-face showdown between Sen. Goldwater (R-Ariz.) and Walter Reuther may be delayed by a growing number of witnesses in a Senate probe of violence in the Kohler Co. strike.

Reuther is president of the United Auto Workers which for nearly four years has been on strike against the Wisconsin manufacturer of bathroom fixtures.

Goldwater is a member of the Senate Rackets Investigating Committee which is trying to determine responsibility for beatings, bombings and other violence during the long strike.

The two are longtime foes and have called each other cowards in recent public statements. Sparks are almost certain to fly when they face each other.

Robert F. Kennedy, the committee's chief counsel, told newsmen it might be the end of next week before Reuther is called to testify.

### Sale of Dog Licenses In County Is Lagging

LISBON — Columbiana County Dog Warden Russell Reichenbach reported today that about 1,300 dog owners who purchased licenses for their pets last year did not buy 1958 tags.

He said 15,082 licenses were issued in 1957 and 13,781 this year.

Each dog owner must purchase a license for his pet on or before January 20 of each year if the animal is three months old or older or pay an extra \$1 as a penalty, the dog warden said.

Since the deadline, the warden and his assistant, Jack Clunk, have arrested 20 county dog owners for failure to buy licenses. They are now checking last year's files to ascertain the names of persons who bought tags in 1957 but did not do so this year.

The owner of an unlicensed dog is subject to a fine, as is anyone who allows his dog to run at large, even if it is licensed, Reichenbach said.

LISBON—Fifty persons attended a meeting at St. Jacob's Church Friday night sponsored by the social activity committee of the church.

Superintendents and board members of Lisbon and Leetonia schools discussed problems of the two village systems.

Mrs. Russell Miller entertained the children with films and games while the parents discussed the school affairs.

## High School

(Continued From Page One)

was begun in February of last year after voters of the Salem school district approved a \$2,565,000 bond issue for the new building and some renovation to the existing high school, which is to become a junior high.

The school board had estimated that the new school would cost \$2 million but when contracts were awarded the total was \$2,160,622. Architects' fees took six per cent.

### General Contractor on Job

The Freeman Construction Co. of Wooster received the general contract on a bid of \$1,594,888.

Other contracts let were: Heating, ventilating and plumbing, \$352,000, Harry Dougherty and Sons, Inc., of Youngstown.

Electrical work, the Einheit Electric Co. of Parma, \$203,048.

Folding gymnasium partition, \$10,696.

At the present time the Board of Education has \$1,013,381 left in the school construction fund. Of this amount \$742,734 is earmarked for contracts already let. The balance not contracted is \$270,647, including the Keener gift.

Balances to be paid on current contracts include \$487,463 to the general contractor.

## No Pushbutton Confidence

Once more, the Federal Reserve Board has cut the discount rate, this time in its New York, Philadelphia and Chicago banks.

Rates in the board's eight other districts will come down accordingly. The result, if everything goes according to plan, will be to reduce interest rates generally, thereby stimulating borrowing and a stepped-up rate of business expansion.

Butting the discount rate is one of the moves public authority can make against a business slowdown, in much the same way that raising the discount rate is one of the moves public authority can make to slow down inflation. This is the third cut since November.

The oddity of the Federal Reserve Board's position however, is that inflation is continuing to be worrisome to its members, even though the board is paring the discount rate in an attempt to slow down a "slowdown."

If any reminder were needed that economic conditions are not mechanistic—that they do not follow formulas—this one would do as well as any.

It is conceivable that public authority might do every trick in its bag of tricks to tickle the country out of a business slowdown and get no results at all.

It is fully as conceivable that the country might snap out of its slowdown without any tricks whatever. The secret is not what government does, unless government makes the blunder of standing in the way, but what the country does by its composite mood.

THE COMPOSITE mood since late last summer has been one of uncertainty.

So many people with so much power of decision suddenly became uncertain a out the future that the future became clouded in their own uncertainty. What caused this?

The budget battle in Congress a year ago, the wave of popular realization that there was no relief in sight from heavy taxation, belated popular understanding of the less-and-less-for-more-and-more formula of dollar-cheapening and what seemed to be the steady deterioration of international relations apparently caught up with too many Americans at once.

## Only Daredevils

It should not be difficult to understand why more and more people get killed by automobiles, and, at the same time it becomes safer to travel by car.

Ohio Safety Council has announced, for example, that the motor vehicle death total increased 1.5 per cent in 1957 but fatalities per 100 million vehicle miles traveled stayed at 5.6, which is highly creditable.

More people travel more miles by car each year; hence, more people are killed because of increased exposure to hazard.

But the hazard, fortunately, continues to diminish, due to safer cars, better roads and safer drivers. If this were not so, travel by car would be so dangerous that only daredevils would risk it.

The fact is that only daredevils are to blame for the hazard that remains. If chronically unsafe drivers could be spotted and taken off the roads, the accident rate would be cut own to an irreducible minimum; there will be accidents as long as there are human and mechanical errors.

The folks who went South for the winter sure found it.

The first appendicitis operation was performed 75 years ago and doctors have been cutting up ever since.

When nothing is accomplished today, it's no fun looking back on yesterday tomorrow.

## Once Over

This country needs to do something about ADULT RELINQUENCY. All things considered, the grownups are behaving worse than the kids. The young are undeveloped, inexperienced and still groping but the adults have been around long enough to know what they're doing and why.

The moppets can point to juvenile delinquency problems and cry, "Look who's talking!"

You can't say the grown-up baddies are "just mixed up." They've had time, training, education and experience to get adjusted to life and its responsibilities. But some highly placed people are being exposed as being as contemptuous of honesty as the worst kids. (Do we need an Adult Delinquency Commission? A switch from the children to their elders who are dodging, defying and busting laws, brushing off the rules and acting as if they never heard of ethics might sweeten the atmosphere. The smell is bad.

IN THE CURRENT SCENE, slick operators, anything - for - a - fast - dollar boys and "hoods" in leading citizens' clothing, are setting a foul pattern for the young.

Government commission members getting it the easy way, one of them admitting taking money from businesses he didn't know he was connected with; larcenous real estate rings; stock swindlers and sleazy routines by men and women a good many years out of the juvenile clan; legislators naming bottle club operators to \$6,000-a-year jobs on state payrolls and city officials urging small cars for most people while taking nothing less than Caddies for themselves, are setting no good example.

They need corrective schools for toughies as much as the small fry.

It isn't hard to imagine an adult's at-

It is significant in 1958 that no one would dream of saying any more that the United States is suffering from overproduction if there is a lull in its phenomenally-high rate of manufacturing.

Anyone who said the country should plan to junk productive capacity that never would be needed again would be taken away in a net in 1958.

Yet, 25 years ago serious commentators were talking earnestly about "overproduction" and the likelihood the United States had more productive capacity than ever would be needed again.

Today, there is talk about "underconsumption," which is blamed by certain union leaders on wage rates that still haven't been orbited high enough to suit them. But what they are saying is going to sound no more sensible later than talk about too much production capacity sounded when slowdown switched to speedup after the '30s.

THERE IS NO pushbutton in the United States labeled "Confidence." No one has a fool-proof formula for making 170 million people feel one way or another. Events and circumstances that change people's minds and moods cannot be controlled.

It cannot be emphasized too often, because there is a strong political reason for trying to blurt it out, that the United States is having no more of a slowdown than it can expect to have occasionally.

No national economy can run at break-neck speed forever. No inflationary spiral can whirl upward forever. There is no mechanistic reason for the United States to go from bad to worse in the next few months, from bad to bad, or from bad to good.

The thing that controls all three possibilities is the composite mood of the American people. It can go from bad to good, from bad to bad, or bad to worse and business conditions will do the same.

Business slowdowns are made by people, not formulas or economic laws. In fact, the economic laws indicate things should be booming, right now, as they will be again whenever people recover from the mood of uncertainty that descended on them during the second half of 1957.

## Ahead of Time

A biology professor in University of Southern California, Jay M. Savage, has wrinkled a few million bald scalps with a prediction that in another 65 centuries men will have hairless heads, spindly legs and no toes. That would be in about 8500 AD — After Deductions.

What wrinkled the bald heads is the idea it will take 65 centuries to evolve something whose evolution already is well under way.

There are now in existence a significantly large number of men with hairless heads, spindly legs and toes in such an advanced state of vestigial disrepair that the smallest one only remotely resembles what it once was.

This is not, moreover, a biological supposition. No one has to take a professor's word for it. The evidence is there in the mirror, morning after morning — hairless, spindly and beginning to be toeless. No one needs to wait until 8500 AD to see how things are going to turn out.

## Landon Enjoys Political Role

By RAY MORGAN

Several nights ago, a few minutes after the dinner hour, the telephone jingled in a Georgian-style mansion at the northwest corner of this city. Seventy-year-old Alf M. Landon, the 1936 Republican presidential nominee, put down a book and heaved himself out of a chair to answer it.

The editor of a leading Eastern newspaper was on the other end, calling to get the details of a speech Landon had made at a dinner in Kansas in which he urged that John Foster Dulles be fired as secretary of state.

The next day the newspaper carried a front-page, three-column headline over a story reporting the speech. It told how Landon had called for a renewal of the Yankee trading spirit in dealing with the Russians and said that Dulles had little flair for the bold and the imaginative.

Alf Landon, 22 years after he carried the Republican standard into a hopeless fray against Franklin Delano Roosevelt, still makes headline news today. Undaunted by his defeat, he maintains an active interest in political affairs, particularly in the international field.

LANDON, hale and hearty, likes to look upon himself as a sort of political conscience on various aspects of national and international life. He has supported Harry S. Truman at times and he has stuck the needle in the Republicans

when he felt it was warranted, as in the case of Dulles.

The former GOP nominee has maintained a host of political contacts around the country from his 1936 campaign and the subsequent national conventions he attended. He is an avid letterwriter, exchanging views with his contacts. He also has many friends in the Washington Press Gallery and frequently writes them or talks with them by telephone.

Landon is independently wealthy and has no financial worries of any kind. He began gathering leaseholdings in oil-rich Kansas many years ago and has held on to them as they increased in value.

The two-time Kansas governor also has invested funds in the radio broadcasting business and is principal owner of WREN, second largest in business volume and listener ratings of Topeka's four radio stations.

Despite his active participation in politics, Landon operates without official portfolio. He holds no official party post either at the state or national level. He likes to look upon himself as a party elder statesman. Although he probably could swing influence in either state or national levels, he steadfastly refrains from doing so.

Landon's last official party participation was in 1948 when he served as a national delegate from Kansas to the Republican convention. Party leaders at all levels

still seek out his advice from time to time.

RIGHT NOW, Landon is engaged with a group of other prominent Kansans who are trying to work out the first full-scale revision of the Kansas Constitution since it was written on admission of the state into the Union in 1861. It's a subject that Landon carries close to his heart, having written the cash basis law under which the state still operates and which helped carry him to the 1936 nomination.

Landon—surprisingly, to some—is a great friend of labor in Kansas. He was incensed recently with Republicans invited Sen. Barry Goldwater (R-Ariz) to make the traditional Kansas Day speech this year. Goldwater used the invitation to write the AFL-CIO out of the Republican party.

A few days later, Landon was conspicuously shaking hands with leaders of the state AFL-CIO at a party they gave for members of the Kansas Legislature and state officials.

THE EX-NOMINEE has great respect for a former fellow Kansan, Fred Seaton, appointed secretary of the interior from Nebraska and believes he has presidential possibilities. In a recent network television interview, Landon touted Seaton as a 1960 dark horse possibility for the Republican nomination.

When he is in town, Landon uses about two hours at lunch time to garner information and express his views. His favorite hideout is a subterranean restaurant on the town's main street and he has his own special table there every day.

His luncheon guests may include anyone from a New York newspaperman to a Kansas Supreme Court justice or a prominent university professor. Luncheon conversation ranges from the situation in Indonesia to the merits of the current state Republican chairman in Kansas.

Landon, looking much as he did 22 years ago, still leads an active vigorous outdoor life. Every morning immediately after breakfast saddles one of his three favorite riding horses and goes for a 6-8 mile canter. Even the recent snows failed to keep him off the bridge paths.

## Courage Needed to Send Latest Note to Reds

It takes genuine courage to issue a note such as the government of the United States has just sent to the Soviet Union in an attempt to the pretense of the Communists and get to the root of their demand for a "summit" conference.

First impressions might be that a straight talk could prevent the holding of a "summit" conference. Actually, it may work out the other way. For, as the United States earnestly attempts to clear the air, the way is wide open to an agreement at any moment if by chance the Soviet Union sincerely desires to make one.

Unfortunately, the biggest single obstacle to the holding of a "summit" conference in 1958 is the record of what happened when the last "summit" conference was held in Geneva in 1955. It was indeed a "showy" affair and when the United States now says that it isn't interested in repeating that kind of parley, out of which again would come meaningless communiques, there is no doubt that the true difficulties of a spectacular session are being realistically underlined.

ORIGINALLY a "summit" conference meant that the heads of governments would get together for a quiet talk by themselves. But the Geneva session showed that, with a couple thousand reporters and photographers at the doors and lots of secretaries and attaches inside, the meeting might just as well have been held in Madison Square Garden. International agreements are never reached that way. It was a propaganda affair from start to finish.

Even as the Soviets were professing high purposes, they were secretly making an arms deal with Nasser and stirring up tension in the Middle East which has not since been relieved.

The United States says it wants a conference that would begin "seriously" to resolve important issues and inaugurate significant steps to limit armaments and it doesn't want just to get together to have a lot of talk and press notices.

It isn't clear as yet what the Soviet strategy really is. The persistence of the Moscow regime in pushing for a "summit" conference is not explained by anything that has happened in recent weeks. For there's no evidence from the Soviets of any intention to make any concessions anywhere in the world.

The only explanation that is regarded here as plausible is that the Communist rulers are trying to placate their own public opinion.

IT IS IMPORTANT for Khrushchev to gain prestige with his own

people and there would seem to be no better way from his standpoint than to begin hobnobbing with the President of the United States and the Prime Minister of Great Britain. This seeming recognition of the respectability of the Communist cause in the world is very important internally in the Soviet Union to the men in the Kremlin.

But the United States government, which is pretty well informed on what's going on inside Russia, has not been stampeded by the propaganda barrage and has not hesitated to insist that, if there is going to be a "summit" conference, it must take up every important issue that is creating tension in the world today.

It is significant that the United States, in listing the issues, includes the "enforced partition of Germany" and the "external interference in countries of Eastern Europe" as well as effective disarmament measures.

The mere fact that the United States reiterates its concern over the tragic continuance of a divided Germany and once more emphasizes its dismay at the interference by the Soviet government in the affairs of Hungary, for instance, indicates that the Western allies have not been bluffed by the rising tide of artificial opinion generated by the Communists in many Western countries in an effort to make it appear that the West is rigid and inflexible and unwilling to make peace.

EVERY DAY there are evidences that the Communists have stirred up mass meetings and phony "peace movements" in almost every Western country, using not only their stooges but many well-meaning persons who are gullible enough to fall for these tactics.

The impression that is sought to be created is that the Western democracies are "warmongers," eager to precipitate a conflict and desirous only of maintaining large armaments for materialistic reasons.

The truth, of course, is that the Western democracies have to be prodded into bigger and bigger expenditures on armament and that, at the slightest sign of an easing of tension, there is a tendency to relax the spending.

It is a matter of great encouragement to free men everywhere that the President of the United States and the secretary of state not only see through the Soviet maneuvers but are insisting that, if there is going to be another "summit" meeting, something definite will have to be assured in advance — something that will really give tangible evidence of a desire to relieve tension in the world.

The latest note is an illuminating example of open diplomacy, with all the moral strength that comes from earnestness and sincerity.

## On Disability Plan

By JAMES MARLOW

WASHINGTON (AP) — A trustworthy, agreeable, inoffensive mediocrity could become vice president.

That might be the result if the Eisenhower-Nixon agreement on how a vice president takes over from an ailing president becomes the rule — for lack of any other solution — for future presidents and vice presidents.

It's easy to see how future presidential candidates would want as their No. 2 man on the ticket an individual whose chief qualification for the job was not so much ability but trustworthiness and a gift for me-too-ism.

President Eisenhower and Vice President Nixon — just because the Constitution doesn't spell out how a vice president takes over from a disabled president — sought to avoid possible future confusion by reaching this agreement:

If Eisenhower becomes unable to carry out his duties Nixon will decide whether he should take them over. Under the agreement Nixon can — but he's free to suit himself — consult others before deciding to become acting president.

If Eisenhower recovers he — not Nixon — will decide whether he's able to resume his job.

This kind of arrangement is all right for Eisenhower and Nixon. They trust each other. Eisenhower has confidence in Nixon's ability. So apparently, does the Republican party or it wouldn't have picked him twice for the vice presidency.

The two men feel they can, under their agreement, handle the problem of an Eisenhower disability. They have made it plain they intend it to apply only to them.

But it may well become an unwritten rule for the future unless Congress — by proposing a constitutional amendment — puts some other arrangement into na-

tional law. One future point in particular could stand clearing up in an amendment. It's this:

Should a vice president be free to decide when a president is too disabled to do his duties or should the decision be made by a group of government officials or in some other way?

The Eisenhower administration wants a constitutional amendment and has banged away at Congress to propose one.

But Congress has been beating its gums on this whole question and has done nothing. There's a good chance it will continue doing nothing and that, without their intending it so, the Eisenhower-Nixon agreement will become a rule.

Suppose that, for lack of constitutional clarification, this agreement becomes the formula for the future. Then, with that in mind, this could happen at a political convention:

A man chosen to be a party's presidential candidate might not want as his vice-presidential running mate a man he feared might at some future time try to move in on him during a period of illness and take over the presidency.

Rather, he might want as his No. 2 man one whose chief qualification was trustworthiness — one who agreed with him but who might be far less qualified than an individual who, while trustworthy, did not see eye to eye with him on everything.

It's easy to see why: a vice president who disagreed with a president's programs might start to change them if, because of a presidential disability, he became acting president.

## Harrison County Sheriff Killed In Head-on Collision

CADIZ, Ohio (P)—The sheriff of Harrison County Odie K. Yoho, 59, was killed today in a head-on collision on U. S. 22.

Deputies said it is uncertain whether he was killed from the impact of the collision or burned to death. Volunteer firemen from Cadiz freed him from the wreckage after putting out a fire which started in the cruiser after the accident.

Sheriff Yoho's wife Edna said he was answering a call to the Edgar Dodds farm. At his office, Deputy Clarence Bigger said there is no immediate knowledge of what the call was about.

One occupant of the other car was also killed, Bigger said. He was identified as Ronald E. Van Curen, 25, of Cadiz. Bigger said he was dead on arrival at Ohio Valley Hospital in Steubenville. Hospital authorities said an accident victim was dead on arrival but declined to confirm the identification until next of kin were notified.

Deputy Bigger said the car which collided with the cruiser was registered to Homer Moreland of Cadiz. Moreland's son Homer was believed to be in the car. Bigger said young Moreland accompanied Van Curen to the hospital in an ambulance but could not be located immediately afterward.

LISBO N—A suit for \$10,000 for personal injuries allegedly sustained by his son when he was struck by an auto was filed in Common Pleas Court Friday by James Birkhimer of East Liverpool.

Ralph C. Miller of Wellsville was named the defendant. Birkhimer claims that Oct. 3, 1957 his son, James D. Birkhimer, was standing on a sidewalk about two feet from the curb on E. 5th St., East Liverpool when the plaintiff backed into parking space and over the curb, striking the plaintiff's son.

CLEVELAND AIRMAN Apparently Kills Self CLEVELAND (P)—Airman 2-C James Gallor stopped the car on Hilliard Road Bridge high above Rocky River Valley and got out. He said he was going to jump. Mrs. Gallor told police.

Mrs. Gallor drove the rest of the way across the bridge because of the rush-hour traffic and came back on foot, police reported.

The body of the 22-year-old Rocky River airman, on leave from Thule Air Force Base, Greenland, was on a roadway 90 feet below. He was pronounced dead at a hospital at 5:35 p.m. Friday.

Mrs. Gallor told police that as she and her husband drove across the bridge she had informed him she wanted a separation.

Married two years, they had one child.

## 88 on County Corn Reserve Waiting List

LISBON — Columbiana County's Corn Acreage Reserve waiting list includes 88 requests for an estimated 598 acres, according to figures at the Agricultural Stabilization and Conservation Committee office in Lisbon.

Two hundred and thirty-one county farmers signed agreements taking approximately 1,570 acres out of production and will share in \$61,000 allocated Columbiana County.

Farmers on the waiting list will have to wait Senate action before additional funds are available. The House has voted to increase acreage reserve funds by \$250 million.

Earl Lora, ASC office manager here, said approximately \$20,000 more will be needed to take care of the waiting-list agreements.

He sent notices to signers of 1958 Corn Acreage Reserve that agreements may be withdrawn not later than March 28. Withdrawal requests must be made in writing to the ASC office in Lisbon.

The allocation of funds was exceeded in 69 of Ohio's 71 commercial corn counties.

## Thinking It Over-- For Lent

By Robert L. Dieffenbacher, D.D.  
(Written for NEA Service)

A single smile can project itself from face to face until its influence is multiplied in geometric progression. If two people saw the smile and each turned their happiness toward two more people who each smiled at two more downcast folk the results would be amazing. Multiplied only 25 times there would be well over 30 million happy faces.

Instead of merely smiling we can tell the glad tidings of the love of God. We can minister twice each day in our quiet witness for God. If we do this effectively enough that others do the same thing, we can encircle the globe with God's message in a very few days.

Even if the progression is broken we must constantly witness for the "peace which passeth understanding" to become real to a world steeped in fear and hate.

## THE SEARCH CONTINUES

Throughout the history of mankind runs the account of a double quest:

*Man searching for God . . .* our restless eagerness to understand and please our Creator has paralleled the centuries of progress.

*God seeking Man . . .* ceaselessly, patiently, His Love has lighted the ages, ever reaching toward our hearts, encompassing our souls.

Yet no powerful lens ever devised will aid in this search. Our quest finds its consummation not beneath the lens of a microscope—but beneath the spire of a Church!

What man does not recognize his own inability to cope with the complexities of life?

There awaits you next Sunday in the Church of your choice the peace and assurance that generations have sought . . . the FAITH which unites Man and God.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Mrs. Ray Stiver, retiring camp chairman, announced that she will

be replaced by Archie Bricker. Mrs. John Yakubek will head the committee to take charge of details during the camping period.

A camp counselor will be secured to assist the leaders with camp and water programs, Mrs. Stiver said.

Mrs. Barckhoff and Mrs. Amil Cosma were appointed by Mrs. Litty to serve as co-chairmen for the senior roundup to be held in Colorado in 1959.

Mrs. Cosma said that 18 leaders have participated in the first aid training, a required course for the camping program. Camp training is being given at leaders' meetings.

Basic training for the leaders will be given in April and May. A workshop for second class badge work will be held April 17 from 7 to 9 p.m. in the girl scout office.

Mrs. Aubrey Hayes announced that March 20 is the deadline for Trefoil news.

Mrs. Norman Flack thanked the group for cooperating in the heart fund drive. She said a total of \$711.87 was collected by the 101 girls, 12 adults, and 20 drivers assisting with the project.

Mrs. Gilbert Everhart, cookie chairman, said that all troops are taking orders now for girl scout cookies, which will be delivered in April.

April is the date of the next board meeting.

## All-Day Program Is Held by St. Jacob's Women's Guild

Forty-five members of St. Jacob's Women's Guild held an all-day meeting at the church Thursday.

Work projects included sewing, quilting and making bandages. A dinner served at noon was followed by a program and department reports.

The dinner tables were decorated with arrangements of dried flowers dyed various colors. St. Patrick's Day appointments added to the colorful display. Mrs. Carl

Miller and Mrs. Garnet Campbell were hostesses.

Mrs. Charles Morlan presided at the afternoon session. Mrs. Paul Stiller, devotional leader, and Mrs. George Smith, program leader, both used the theme for the day, "We Believe in God the Father Almighty."

Three Bible study groups were led by Mrs. A. A. Kosower, Mrs. H. V. Zimmerman and Mrs. William Carroll.

Departmental reports included: Spiritual life, Mrs. Carroll talked on the subject, "There is a book by your side, the Bible." She then distributed folders giving daily Bible readings for 1958.

Missionary, Mrs. Wilbur Arter presented facts on a field missionary the church helps to support.

Stewardship, Mrs. Clifford Farmer read a paper on the topic, "Be a Steward All Day Every Day."

Christian education, Mrs. Campbell called attention to the latest books on the church library shelf and presented excerpts from current magazines as suggested reading material.

Christian service, Mrs. Dean Price showed pictures and clippings depicting gratitude for Christian service work. She urged the women to begin their work on service projects for the year.

Christian social action, Mrs. Carl Miller announced the meeting arranged for last night at the church for parents to meet with members of the Lisbon and Leontina school boards for an open discussion on school problems.

Mrs. Isaac Harrold reported on the recent meeting of the Girls Guild and said that the Girls and Women's Guilds will jointly sponsor a mother-daughter banquet sometime in May.

Mrs. Kenneth Clapsaddle and Mrs. Morlan are delegates and Mrs. George Smith, alternate, to the biennial synodical spring meeting to be held in Elyria April 22. All women who can attend are urged to do so.

The April 3 guild meeting will have as its theme, "We Believe That Man is Created in the Image of God."

## Louisiana Woman Spearheads Drive Women's Club Federation Promotes Highway Safety

BY ALICIA HART  
NEA Staff Correspondent

WASHINGTON — (AP) — A petite, energetic lady is about to apply the woman's touch to Texas justice.

Mrs. B. V. Todd, safety chairman of the General Federation of Women's Clubs, plans to launch a sweeping investigation of Texas traffic courts to find out how they can be improved.

Starting next month, the Lake Arthur, La., safety enthusiast will hold meetings in nine Texas GFWC districts where members will hear authorities explain how a proper traffic court system should operate. They also will receive a list of rules prepared by the state bar association.

Then the ladies will start visiting the courts. Their recommendations for improvements will be thoroughly studied at a future meeting of bar association officials, judges and prosecutors.

THE TRAFFIC COURT study will be financed out of a \$15,000 grant given to GFWC by the Automotive Safety Foundation. It is only one of Mrs. Todd's ideas for boosting highway safety conditions this year.

She soon will begin a program in California designed to promote stiffer driver's license examinations. And a tour of New England women's clubs to spark interest in highway safety programs also is on her schedule.

"I think the average woman could do more for better highway safety if she became educated on the needs," Mrs. Todd explains. "Many women would like to do something, but they just don't seem to know the right approach."

Showing women how they can help has kept Mrs. Todd busy for about 15 years. Last year, for example, she devoted 248 days without pay to the project.

Safety officials credit Mrs. Todd's magnetic personality and intense interest in her work for her success in promoting traffic safety. One expert explains, "It's very easy for her to sell anyone because she's so enthusiastic herself."

## Questions and Answers

It is sad when one hears of a tragic situation which probably could have been prevented had it been treated early.

Q — Please say something about dislocated hips. These have always been my problem. I am now 34, married and have two teen-agers and a small son. My condition has always been embarrassing and, of course, keeps me from swimming, dancing and doing so many other things which my husband likes.

A — It seems almost certain that the dislocation of the hips referred to was present at birth and belongs among the congenital deformities. Today the outlook for good joint function of the hips is excellent if treatment is started before the third year of life. In older children and grownups the

results of treatment are less certain and the problem is much more difficult, involving the selection of an operative procedure most likely to provide a stable and useful hip joint. What can be done at the age of 34 is debatable, but an orthopedic surgeon should be consulted.

Q — Is it possible that injection of hormones for hot flashes at the menopause can cause soreness of the breasts?

A — Yes, it is possible, and I believe sensations in the breasts frequently follow such injections. If the sensations are severe, it may be that the dose of hormones should be reduced; the sensations will doubtless disappear when the hormone shots are stopped.

Q — I have what is called a loose cartilage in the right knee. What could have caused this and how can it be cured?

A — The most probable cause is that there was some injury to the knee and that the cartilage was pulled off its normal attachment and now is loose. Frequently such cartilage can cause discomfort or stiffness and it may also irritate the other structures of the joint. If the symptoms are severe enough or the chances of damage great, it may be advisable to have the loose cartilage removed by surgery.

Q — Sometimes I must talk to an irritating person who upsets me no end, and I feel the back of my neck and shoulders tighten up and ache. Can it be true that a dogmatic, irritating person, who cannot see anyone else's point of view can actually give me a pain in the neck?

A — There is an old saying that something or somebody can give one a "pain in the neck." I believe this to be true and just one more evidence of the close relationship between emotional and physical functions. This would now be described as a psychosomatic ailment.

**NO FRONT AXLE** — Designer and builder Frank Kurtis displays new design racer he's building in Glendale, Calif., for competition in this year's 500-mile Memorial Day race in Indianapolis. It has no front axle but uses a design called a trailing arm independent suspension system. Kurtis claims it will give smoother ride and better handling on the curves. He says independent suspension has been used previously in passenger cars but this will be first racer employing the system. The engine will be mounted on its side. Johnny Thomson of Boyertown, Pa., will drive the car, called the "D.A. Lubricant Special."

# Sekely's Rips Herron's 65-50 for City Class B Title

## Greiner Nets 27 For Winners

Victory Is Second Straight for Sekely's

By GORDON ARNDT

Sekely's sparked by a sensational 27-point scoring barrage by Chuck Greiner, won the Class B City League championship Friday night by blasting Herron Transfer 65-50 in a contest staged at the Memorial Building.

The win gave Sekely's two straight victories in the best-of-three playoff. It had defeated Herron's 60-49 Thursday evening in the opening game of the championship series.

Herron's had won the Division A title to become eligible for post-season play while Sekely's had topped honors in Division B.

**THE TURNING POINT** in the game came midway through the second quarter when the victors switched from a zone to a man-to-man type defense.

The strategy paid off as Herron's most effective point getters, Jack Halkerman and Ed Votaw, were forced to work the ball inside, rather than pop away from the outside.

With Andy Saffkow pulling off numerous rebounds and Greiner leading Sekely's fast break, the gold-shirted cagers sprouted ahead to a 10-point lead which they never relinquished.

Herron's cagers trailed 10-9 at the quarter but found themselves on the short end 30-20 at the intermission.

**SEKELY'S KEPT UP** its onslaught in the third period to go ahead at one time 40-27.

Herron's cagers never quit trying throughout the contest but their efforts went in vain. Several times they came within eight tallies, but that was the closest they ever got in the second half.

Greiner was most impressive for the winners with his set shots. He also did damage on jump shots and driving layups. Sekely's had no other men in the double figures, although Chuck Edie and Jim Hill rimmed nine each.

The one-hand push shots of Halkerman garnered him 18 points for Herron's while teammate Votaw was effective for 18 tallies of his own.

**GREINER, SFAKOW** and Halkerman were all named to the league's all-star team.

Seven other players who comprise the select list include Dick Beall of Campbell's, Phil Wenner of Mark's Landing, Ray Mallarene of Gasco's, Ed Senior of Foreman's, Gene Kitzmiller of John's Pennzoil, Art Hawes of Bunn's and Gene Hammett of Lisbon Lumber. The league's "most valuable player" honors went to Gene Kitzmiller.

**THE BALLOTING WAS** conducted by Rusty Tomlinson, assistant manager of the Memorial Building; the team coaches and the two league scorers, Dave Briskin and Don "Duck" DeJane.

The officials who "called them" during the year were Al Catlos, Tom Nedelka, Torch Nedelka, Frank Lanney, Bill Schaeffer, and Tony Martinelli.

Timers included Paul Wiggers, Tom Dahms and Bob Kelley.

**SEKELY INDUSTRIAL** — 65

### Indians to Face San Francisco

Big Leagues to Open Exhibition Season

By The Associated Press

In the fourth inning of the seventh game of the 1956 World Series, Roy Campanella doubled off Yankee pitcher Tommy Byrne and scored moments later on a single. It turned out to be the winning run as the Brooklyn Dodgers sewed up their first world championship.

Times have changed. The Dodgers have moved to Los Angeles. Campanella lies half-paralyzed in a Glen Cove, N.Y. hospital and Byrne has retired.

But although the names may not be the same in many cases, the "game's the same." It's still big league baseball and that's all that will matter when the scores of the exhibition openers come trickling in today from Florida and Arizona.

Much of the interest will center on the Los Angeles and San Francisco teams. The Dodgers play the Philadelphia Phillies in a night game in Miami while the Giants meet the Cleveland Indians in Phoenix, Ariz.

In other games, the Chicago Cubs meet the Baltimore Orioles at Scottsdale, Ariz.; Cincinnati faces the Chicago White Sox at Tampa, Fla.; the world champion Milwaukee Braves take on Detroit at Lakeland, Fla.; Pittsburgh and Boston clash at Sarasota, Fla.; the Yankees and St. Louis get together at St. Petersburg, Fla. and Washington and Kansas City hook up at West Palm Beach, Fla.

The Giants-Indians game will also mark the American League managerial debut of Bobby Bragan.

Herb Score's scheduled first game appearance for Cleveland since his untimely eye injury last May was postponed. The young left-hander, suffered a sprained right ankle running around a Tucson YMCA gym Friday and will be sidelined for a few days.

The latest hospital bulletin on Campanella indicated that the burly catcher is showing general improvement and his paralysis is slowly disappearing. Roy suffered a broken neck in an automobile accident Jan. 28.

Byrne, who had said several times he was considering retirement from baseball, made it official yesterday. He has joined the staff of an oil company in Sanford, N.C.

### Akron Drops 82-70 Loss To Evansville

By The Associated Press

Wheaton and Tennessee State have passed successfully their first tests in quest of their second straight small college basketball championships.

Wheaton, winner of the NCAA college division title last year, defeated St. Norbert's of Wisconsin 66-66 in the first round of the Great Lakes regional at Aurora, Ill., Friday night. And Tennessee State, the NAIA champion, qualified for the championship tourney starting in Kansas City Monday, by beating North Carolina College 115-65 at Nashville for the District 29 title.

The field for the NCAA competition will be reduced to eight teams by tonight for the final rounds starting in Evansville next Wednesday. Evansville already has reached the quarterfinals, beating Akron 82-70 Friday night in the Midwest regional final at Evansville.

But Wheaton with a 25-1 record still must get past Hope, a 101-95 winner over Northern Illinois, to qualify for a trip to Evansville. They play tonight along with 12 others of Friday night's winners.

### County Sportsmen's Dinner Draws 200

About 200 persons attended the annual dinner of the Columbiana County Federation Sportsmen Friday night at the Valley Golf Club in Columbiana.

A smorgasbord was served. Slides of the Yukon were shown during the program, and a magician's act also was featured. Eugene Esterly was chairman of the dinner arrangements, and L. T. Williams, chairman of the entertainment.

Officers are Howard Adrian of East Liverpool, president; M. H. Miles of Salem, vice president; Esterly of New Waterford, secretary; and Robert Steel of Salem, treasurer.

Melbourne—Max Carlos, 135%, Australia, outpointed Tommy Romulo, 135, Manila, 12.

**CLASS B CHAMPIONS**—Sekely Industrial swept honors in the Class B City League Friday night by beating Herron Transfer 65-50 for its second straight win in the best-of-three playoff. The cagers, shown in top photo, are (front row l. to r.) Gale Hippley, Buck Mooney, Chuck Greiner and Corky Wyss. Back row: Jim Hoopes, Chuck Edie, Jim Hill and Andy Saffkow. Members of the losing Herron team are shown in the bottom picture (front row l. to r.) Jack Halkerman, Ed Votaw and Tom Pastier. Standing are Bill Crookston and Jerry Jeffries.

## Middletown Scores Rugged 66-62 Win Over Hamilton

### Gomes Scores Split Decision Over Chestnut

NEW YORK (AP)—Harold Gomes today held a slim, split decision victory over fourth ranking featherweight Ike Chestnut but he wasn't crowing loudly over it.

The reason? A dull 10-rounder, marred by continuous holding and deserved boos from many of the 2,000 fans in Madison Square Garden for the telecast bout Friday night.

Each blamed the other for the lack-luster contest. Both seemed equally guilty.

"He wouldn't give me any punching room," moaned Gomes, 24, an unranked puncher from Providence, R.I. "He locked me up inside and made it seem as if I was doing the holding. I would rather have fought a war. I wanted to please the fans so much in my first Garden main event. Instead I heard boos for the first time in any of my fights."

"This was my 14th fight in the Garden and the first time I've heard boos," wailed Chestnut, 26. "He kept on holding. I won the fight, too. I don't know what hurts me most, the boos or the decision."

There were only two lively rounds, the seventh and ninth. Chestnut had been cut over the left eye near the end of the sixth. Gomes, who has a numerically impressive .500 knockout average for his 44 pro fights, opened up with both hands in the ninth for a good round.

Referee Art Mercante, who kept prodding both fighters for action, and Judge Artie Aidala, each had Gomes in front, 5-4-1. Judge Bill Recht had it even, 4-4-2 and four points for each. The AP card had it even, 5-5.

Chestnut had an edge in the weights, 130 to 128½.

New York (Madison Square Garden)—Harold Gomes, 128½, Australia, outpointed Tommy Romulo, 135, Manila, 12.

### Cuyahoga Falls Defeats Canton McKinley 50-49

COLUMBUS, Ohio (AP)—Ohio's top-talent high school cage teams hit the payoff stage tonight in their bid for regional tournament berths.

Seven Class A and three Class AA quintets grabbed some of the 16 coveted regional berths Friday night. Middletown's seven - time Double-A state champions led the way into the Cincinnati playoffs with a rugged 66-62 win over three-time champion Hamilton.

It was the third win over the Big Blue for the Middies this season, and big Jerry Lucas contributed 29 points to the winning cause.

Cincinnati St. Xavier, with a 23-0 record, joined Middletown's 22-game winners in the Queen City regional with a neat 73-48 victory over Cincinnati Taft. Cuyahoga Falls, with a 15-6 record, annexed a Class AA regional berth at Kent, sweeping aside ever - threatening Canton McKinley by 50-49 in an overtime.

Of the 29 teams still in the Class AA scrap, survivors of the starting field of 387, a half-dozen haven't tasted defeat. Back of St. Xavier and Middletown are Cleveland East Tech, Zanesville and Columbus North with 21-0, and Toledo Scott with 19-0.

Newark St. Francis nipped Jacksontown 46-44 in an overtime at Columbus to reach the Class A regional again. Last year the Newark team was ousted in the first regional game at Athens, but this year it goes to Troy.

St. Francis, which is in, and unbeaten Bucyrus Holmes - Liberty (21-0) are the only ones of the 25 Class A survivors with a chance to repeat from last year.

The Canton Class A regional was filled in Friday night's games. Dillonvale of the Eastern District and Hartford, Columbiana and unbeaten Northwestern of Holmes County (25-0) of the Northeastern were triumphant. Other regional qualifiers are Pleasantville (20-3)

and Buchtel-York, for the Athens playoffs.

Miller City's 1950 Class A kings, second-rated in the final Associate Press poll of sports writers, were snuffed out Friday night, 59 to 5 by Ridgeville, after building up a 21-2 record. That left Dixie of Montgomery County (24-0), the eighth-ranked club, as the lone survivor of the Class A top 10.

Hamilton was rated ninth in Class AA, and The Big Blue set- back left eight of the final top 10 still on deck. Another top-flight casualty was Springfield, the 1925 and 1950 Class AA champion, a 56-47 loser to Dayton Fairview.

Three of the top 10, Elyria (8), Cleveland East Tech (2) and Cleveland St. Ignatus (10) are favored to make up three-fourths of the regional field at Berea after tonight's contests.

Zanesville (3) is expected to defeat Tiltonsville for a berth at Kent, while both Toledo Scott (4) and Columbus North (6) are favored to move into the Marion-Toledo playoffs.

With St. Xavier (7) and Middletown (1) in the Cincinnati regional, the stage is set for some stirring combat before the four state finalists are named next Saturday.

### Triumphs 71-53 After Comeback

Clippers To Play In Regional Event

Coming from behind, Columbiana defeated Boston Township 71-53 in district play at Memorial Fieldhouse in Canton to gain the regional Class A basketball tournament.

The Clippers nabbed their 16th win in 22 games. Boston Township bowed out with a 20-3 record.

Columbiana was behind 16-15 at the end of the first period. In a furious second frame, during which the lead changed hands five times, the Clippers emerged trailing 36-28.

Columbiana staged a rally in the third stanza, and led 43-39 at the three-quarter mark.

The Bulldogs were able to make only two of 14 shots from the field in the third stanza.

The Clippers netted nine of their first 10 shots in the fourth frame to turn the game into a rout.

Columbiana netted 30 of 64 action shots and Boston, 22 of 71. Bill Davidson was high scorer for the winners with 22 markers. He was followed by Murphy who netted 16. Six players scored for Columbiana.

Holesk paced the Bulldogs with 15 points.

In other contests, Northwestern bowled over Vienna's Flyers 69-46 and Hartford ousted Fairfield 44-38.

A crowd of over 4,500 saw the games.

### Illini Favored In Big Ten Indoor Meet

CHAMPAIGN, Ill. (AP)—Illinois took the favorite's role from defending champion Indiana today in the finals of the Big Ten indoor track and field championships.

The Illini, who have failed to win the indoor crown since a four-year clean sweep that ended in 1954, won nine places in Friday night's qualifying trials in the Illinois Armory.

Michigan also took 9 spots and Indiana swept 12, but the Illini were poised with winning strength in the mile run and the high jump, two events not on the qualifying card.

Bob Mitchell, speedy football halfback, qualified for the semifinals of the 60-yard dash, and finals of the low hurdles and the broad jump.

Leading Indiana is Olympic broad jump champion Greg Bell whose leap of 25 feet 3½ inches Friday night topped the armory record set by Jesse Owens in 1935 by 1½ inches.

Bell also qualified for the 60-yard dash semifinals and the 300-yard dash. The Hoosiers lost points when hurdler Tom Campbell failed in the highs and was scratched from the lows. Campbell was hobbled with a pulled left leg muscle.

Ohio State pinned its hopes on Glenn Davis, its 400-meter Olympic record-breaker. Davis qualified for four spots—in the 60-yard dash semis, high and low hurdles and the broad jump.

Iowa, MSU and Ohio State each qualified for 6 places, Purdue 4, Wisconsin and Northwestern 3 each and Minnesota 2.

## Division of Forestry Has Sold 13½ Million Seedlings in '58

COLUMBUS, Ohio (AP)—The State Division of Forestry has sold 13½ million seedling forest trees already this year. Deliveries start Wednesday and continue for the next month.

### McKinley, Buckeye, Prospect Winners In McGuire League

Three points by Pete Nollner in the last four seconds gave McKinley School a 29-27 win over Fourth St. School in one of three McGuire League games played this week.

In two other tilts, Prospect stayed unbeaten by topping Reilly 28-24 on scoring by Danny Franks and Wayne Washington while Buckeye smashed St. Paul 25-16.

McKinley trailed Fourth St. 25-26 when Nollner was fouled during a desperation shot. The shot found the range for two points and Nollner then caged the charity chance for his team's two point win.

McKinley led 14-12 at the half and 21-18 after three periods.

Nollner was the game's high scorer with 13 tallies for the winners; Bill Carter had nine for Fourth St.

The double-barreled offensive of Franks and Washington was too much for Reilly as the pair combined for 24 of the winner's 28 tallies. Franks hit for 13 and Washington, 11.

Charlie Alexander rimmed eight for Reilly.

Prospect led all the way, taking a 18-9 intermission margin and holding it at 23-16 going into the final stanza.

Seventeen players saw action for Buckeye in its win over St. Paul. Don Secrest was high for the victors with nine markers while Dick Barrett hauled in game scoring laurels with 12 for the losers.

St. Paul led 5-2 at the quarter but fell behind 9-7 at the half. The losers lost the game in the third period when they failed to score while Buckeye went ahead further at 13-7.

### Damascus

Devotions were conducted by Mrs. Chester Stanley when the Myrtle Williams Missionary Auxiliary of the Friends Church met Wednesday.

A ememorial was held honoring the late Mrs. Homer Stanley a member of the Society.

Mrs. Everett Cattell was program leader speaking from the theme "Neighbors."

Several poems were read.

Quilting and sewing occupied the hand work with 21 in attendance.

A casserole dinner was served at noon with Mrs. Merle Shreve and Mrs. Bert Phillips hostesses.

Announcement was made of the Damascus Quarterly meeting Women's Retreat to be held in the Salem Friend's Church Mar. 27 at 10 a.m.

St. Patrick Day favors supplemented the theme when Mrs. Bernard Ostrosky entertained the Merry Mixers Club Wednesday. It was decided to bring metal boxes and candy to the next meeting to pack them for a Nursing Home for Easter.

The program was in charge of Mrs. Lorin Cameron with prizes being awarded Mrs. Robert Cline, Mrs. Clarence Ellyson and Mrs. Alfred Gamble.

A special prize was awarded Mrs. Leland Knoedler.

The next meeting will be held at the home of Mrs. Robert Moore April 2.

The Duo Decem Club was entertained by Mrs. David Myers Wednesday evening with Mrs. Leonard Spencer and Mrs. Robert Woolman guests.

Several Secret Sisters received gifts and a gift was presented Mrs. Earl Bardo for her new baby, Leslie James.

"500" was the pastime with prizes being awarded Mrs. Samuel Striffler and Mrs. Russell Kurena.

Lunch was served by the hostess.

The next meeting April 2 will be held at the home of Mrs. Louis Hoopes.

Girl Scout week will be observed Mar. 9 to 15 with the Girl Scout Troops and Brownie Troops of this area attending services at the Bunker Hill Methodist Church at 11 a.m. Sunday.

The Girl Scout birthday is Mar. 12 and a Mother's Tea is planned for at the High School building at 7 p.m. It is being arranged by the Troop Committee members.

Each Troop is responsible for a part in the program.

## Here and There In Our Town

By DONNA AGAN

There are still a few openings in the Ceramics Class which Mrs. Jesse R. Edwards will teach at the Memorial Building beginning Monday... classes will be held each Monday for six weeks meeting in the afternoons from 1 to 3:30 and in the evening from 7 to 9:30... a friend of mine in Canton joined a ceramics class there last year, as a result made a whole boxful of Christmas gifts, including those little Santa Claus mugs to give to her children's friends... the \$5 fee for the class here covers registration and all the materials.

MRS. KENNETH LODGE was asked to be chairman of the Red Cross residential drive this year... for three of her team captains Mrs. Lodge chose newcomers to Salem... Mrs. James Caudill has Salem's southwest section; Mrs. Fred Schramm, the northeast; Mrs. Edwin Pease, the southeast... with Mrs. Chester Lucas (who has been in Salem two years) covering the northwest section.

ROBERT ZIMMERMAN and Sam Gibson were welcomed as new Jaycee members recently... today and tomorrow there is an all-state Jaycee meeting in Akron... going over from Salem are Jack Rance, George Equizi (who are trustees on the Jaycee state board), Gary Moffett, Art Herron Jr., Wayne Darling, Paul Warvel and Ed Maruca... local Jaycees who helped the Columbiana group to organize recently were Rance, Equizi, Maruca and Warvel.

AN ACTIVE member of the Senior Citizens Club at the Memorial Building is Mrs. Ava Nettrour of 944 E. State St. ... Mrs. Nettrour joined the "over 60 club" a month after it was organized by Lee Burton in December, 1956... since then she has brought in 24 new members, and seldom misses one of the Wednesday afternoon meetings.

This same club is now organ-

izing a singing group which Mrs. Laten Carter will direct... 12 already have enrolled and more are wanted to meet the first and third Wednesdays at the Memorial Building to enjoy harmonizing the old favorites.

Bob Potter, son of Mr. and Mrs. Robert Potter of 343 Highland Ave., and Ed Griffiths, son of Mr. and Mrs. A. D. Griffiths of Chestnut Grove Rd., have been selected as managing editors of the Reserve Record, the weekly newspaper of Western Reserve Academy at Hudson.

**\$14,135 Suit Filed Against John Tobin**

YOUNGSTOWN, Ohio (AP)—John J. Tobin Jr., who has admitted being part of an insurance claim fraud ring, is being sued for \$14,135 by his mother-in-law.

Mrs. Josephine Carozzo said in the suit Friday she loaned the money to Tobin and his wife Anna to help build a \$35,000 home. She seeks judgment because the holder of a mortgage on the property is foreclosing.

Tobin, who is in Mahoning County jail, had not moved into the house.

### STORIES OF Gems and Gem Stones

**THE KOH-I-NOR**

Foremost among the stories of precious gems is the romantic history of the Koh-i-nor diamond.

Tradition has it that the stone was found in the Godavary River, in India. Rulers of the Malwar province kept it for many generations, and its first authentic record puts it in the possession of the Rajah of Malwar in the early fourteenth century. It was taken from him by a conquering prince, and from there on, many murders, tortures, and imprisonments figured in the lives of its unfortunate owners. The stone weighed 186 carats in its native cutting, and got its name from the expression uttered by the Nadir Shah of Persia when he first saw it: "Koh-i-nor," he exclaimed, which meant Mountain of Light.

When India was annexed by Britain in 1849, the stone was taken from the Punjab treasury, and was presented to Queen Victoria, who had it recut, and its new size weighed about 109 carats. The Koh-i-nor has never exchanged hands by purchase, so no value has ever been associated with the diamond. It has been said that the recutting of the stone cost \$40,000. It is now among the crown jewels of Great Britain, and is worn on special occasions by Her Majesty the Queen.
